

WITNESSES — LOGO SPECIFICATION

This sheet defines the Witnesses wordmark lockup: its typeface, proportions, colour, and permitted use. All measurements are expressed in multiples of the cap height (X) so the mark can be rebuilt at any size, in any medium, without loss of fidelity.

PRIMARY LOCKUP · INK ON PAPER · THE DEFAULT IN ALMOST EVERY APPLICATION

TYPEFACE

ELEMENT	SPECIFICATION
Typeface	Chakra Petch – SIL Open Font License 1.1
Wordmark	Bold (700) · all caps · tracking -5/1000 em
Tagline	Regular (400) · sentence case · tracking +136/1000 em
Source	fonts.google.com/specimen/Chakra+Petch – free, commercial use permitted

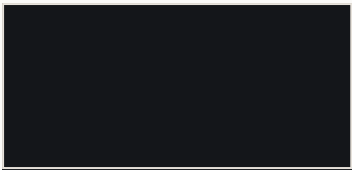

Why the tagline is tracked so widely. The letterspacing is not decorative. It is calculated so the tagline's optical width matches the wordmark's exactly, flush on both edges. If the tagline text ever changes, the tracking must be recalculated to preserve that alignment — do not simply retype it at the same value.

CONSTRUCTION

MEASURE	VALUE
X (cap height)	the unit – = 0.70 × wordmark font size
Lockup width	7.884 X
Lockup height	1.688 X
Tagline font size	0.5429 X (= 0.38 × wordmark font size)
Baseline to tagline cap	0.30 X
Minimum clear space	0.50 X on all four sides

COLOUR

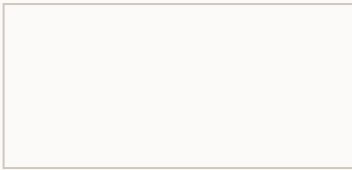

Ink

HEX	#14161A
RGB	20 · 22 · 26
CMYK	23 · 15 · 0 · 90

Ember

HEX	#9E3B14
RGB	158 · 59 · 20
CMYK	0 · 63 · 87 · 38

Paper

HEX	#FBFAF8
RGB	251 · 250 · 248
CMYK	0 · 0 · 1 · 2

CMYK values are arithmetic conversions for guidance only. For any commercial print run, ask the printer to match from a physical proof under standard lighting rather than from these numbers. If a spot colour is required, start from the Pantone warm-red family and confirm against a physical swatch book – do not specify a Pantone number from a screen.

VARIANTS

KNOCKOUT – FOR DARK BACKGROUNDS AND PHOTOGRAPHY

ACCENT – SPARING USE; TITLES AND COVERS ONLY

ONE COLOUR – VINYL, EMBROIDERY, SINGLE-PLATE PRINT

Minimum size

Print	40 mm wide
Screen	180 px wide

BELOW THIS THE TAGLINE LOSES LEGIBILITY. USE THE WORDMARK ON ITS OWN INSTEAD.

DO NOT

- Do not add drop shadows, outlines, bevels, gradients, or glows.
- Do not rotate the lockup or set it on a curve.
- Do not substitute another typeface, or rebuild the mark in a lookalike font.
- Do not place the lockup on a busy image without a solid or scrimmed panel behind it.
- Do not re-typeset the tagline without recalculating the tracking to match the wordmark width.

FILES SUPPLIED

FILE	USE
Primary	Default. Outlined vector, ink.
Knockout	Reversed out of an ink panel.
Accent	Ember tagline. Covers and titles.
1-Color-Black	Single-plate print, vinyl, embroidery.
Wordmark-Only	Small sizes, avatars, favicons, merchandise.
EDITABLE-live-text	Live text. Requires Chakra Petch installed. For amends only.
/Fonts	Chakra Petch TTFs and the OFL licence text.

All SVGs except the editable one have the type converted to outlines, so they render identically whether or not the font is installed. Vector artwork scales without limit — use these rather than exporting bitmaps wherever the medium allows.
